

Due to the fragile nature of most paper collectibles, the letter and/or number grade shown on the label of this encapsulated collectible represents the opinion of a professional grader at time of grading. The grade is considered void if the plastic case has been opened or tampered with after encapsulation. A certificate of authenticity with the same information has been issued and included with this item. Under no circumstances will compensation of any kind (including refund) be given to any item holder as a result of an error in encapsulation, certification, or grade. The grade noted on the label and certificate is given at CPS grading discretion.
